

Iteration 1 Report

Customer Meeting

We did not meet customer this week because we were requested to meet next week with professor Walker.

User Stories:

Feature: Admin Account Password Reset

As an administrator

So that I can reset my password in case

I want to receive an email to reset my password

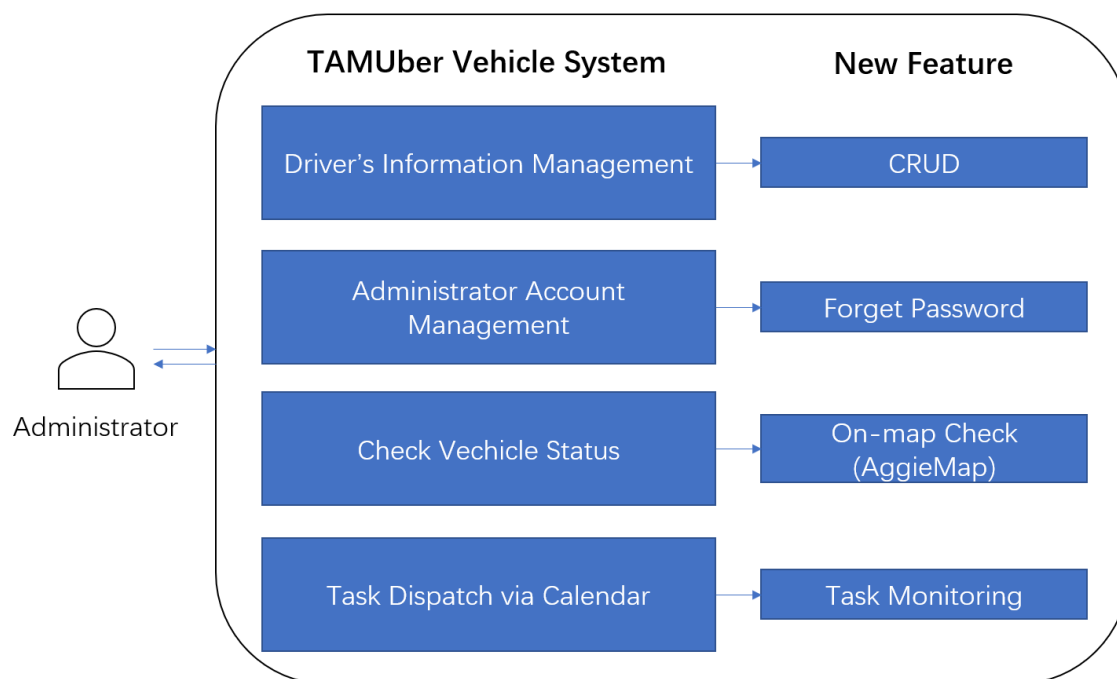

Feature: Add Drivers' Information

As an administrator

So that I can check drivers' information

I want to add the driver's information into the database

Design Diagram:

Evaluation of Code and Test:

```
TAMUber — -bash — 96x32
Feature: Update vehicle
  As an administrator
    In order to manage the vehicles we have
    I would like to update vehicles to the database

Background:
  # features/update_vehicle.feature:7
  Given the vehicle Car1 exist # features/step_definitions/steps.rb:68

Scenario: Successfully update vehicle
  # features/update_vehicle.feature:10
  Given I am on the homepage # features/step_definitions/steps.rb:44
  When I click "Vehicles" # features/step_definitions/steps.rb:102
  Then I should be on the vehicles page # features/step_definitions/steps.rb:233
  When I click "Update Car1" # features/step_definitions/steps.rb:102
  Then I should see "Edit Vehicle Car1" # features/step_definitions/steps.rb:117
  When I fill in "vehicle_name" with "Car2" # features/step_definitions/steps.rb:60
  When I press "Update Vehicle Info" # features/step_definitions/steps.rb:52
  Then I should be on the vehicles page # features/step_definitions/steps.rb:233
  And I should see "Car2 was successfully updated" # features/step_definitions/steps.rb:117
  And I should see "Car2" # features/step_definitions/steps.rb:117

Failing Scenarios:
cucumber features/create_administrator.feature:7 # Scenario: Successfully create administrators
cucumber features/create_vehicle.feature:7 # Scenario: Successfully create vehicle
cucumber features/delete_administrator.feature:10 # Scenario: Successfully delete vehicle
cucumber features/update_administrator.feature:10 # Scenario: Successfully update vehicle

6 scenarios (4 failed, 2 passed)
58 steps (4 failed, 34 skipped, 20 passed)
0m0.426s
