

Iteration 2 Report

Customer Meeting

We meet the professor Walker at 4:30 pm - 5:30 pm this Thursday at HRBB.

Meeting Video

There is no meeting video.

User Stories

- As an administrator, I would like to sign up for the management system, so that I could use the system.
- As an administrator, I would like to log in to the management system, so that I could use the system.
- As an administrator, I would like to reset the password, so that I could use the system even if I forget the password.
- As an administrator, I would like to add drivers to the database, so that I could know who the drivers are.
- As an administrator, I would like to edit drivers' information, so that I could keep their information updated.
- As an administrator, I would like to delete drivers from the database, so that I could see if any driver quits.
- As an administrator, I would like to add other administrators to the database, so that I could know who the administrators are.
- As an administrator, I would like to edit administrators' information, so that I could keep their information updated.
- As an administrator, I would like to delete other administrators from the database, so that I could see if any administrator quits.
- As an administrator, I would like to add events to the calendar, so that I could know what the events are.
- As an administrator, I would like to edit events on the calendar, so that I could keep the events updated.
- As an administrator, I would like to delete events from the calendar, so that I could see if any events are canceled.
- As an administrator, I would like to see the vehicles on Aggie Map, so that I could see what vehicle's information are.

Evaluation of Code and Test:

```

VEHICLE DESTROY (0.1ms) DELETE FROM VEHICLES WHERE VEHICLES.id = ? [[10], 1]]
(0.1ms) RELEASE SAVEPOINT active_record_1
Redirected to http://test.host/vehicles
Completed 302 Found in 2ms (ActiveRecord: 0.3ms)
(0.1ms) rollback transaction
.

Deprecation Warnings:

Using `should` from rspec-expectations' old `:should` syntax without explicitly enabling the syntax is deprecated. Use the new `:expect` syntax instead from /home/ec2-user/environment/TAMUber/spec/controllers/vehicles_controller_spec.rb:80:in `block (4 levels) in <top (required)>'.

If you need more of the backtrace for any of these deprecations to identify where to make the necessary changes, you can configure `config.raise_errors_for_deprecations!`, and it will turn the deprecation warnings into errors, giving you the full backtrace.

1 deprecation warning total

Finished in 0.32787 seconds (files took 2.01 seconds to load)
24 examples, 0 failures

Coverage report generated for Cucumber Features, RSpec to /home/ec2-user/environment/TAMUber/coverage. 87 / 312 LOC (27.88%) covered.
