User Stories
- As an administrator, I would like to see the information of on duty car in the main page, so that I can monitor their behavior.
- As an administrator, I would like to see the position of on duty car on aggie map, so that I can monitor their behavior.
- As an administrator, I would like to see the information of the car when I move mouse cursor to the car in monitor page, so that I can quickly get the information of that car.

Evaluations of Code and Tests
rspec:
- rspec ./spec/controllers/driver_spec.rb
  DEPRECATION WARNING: [Devise] including `Devise::TestHelpers` is deprecated and will be removed from Devise.
  For controller tests, please include `Devise::Test::ControllerHelpers` instead.

  ....

  Deprecation Warnings:

  Using `should` from rspec-expectations' old `:should` syntax without explicitly enabling the
  syntax is deprecated. Use the new `:expect` syntax or explicitly enable `:should` with
  `config.expect_with(:rspec) { |c| c.syntax = :should }` instead. Called from
  /Users/leonchen/Desktop/TAMUber/spec/controllers/vehicles_controller_spec.rb:80:in
  `block (4 levels) in <top (required)>'.

  If you need more of the backtrace for any of these deprecations to
  identify where to make the necessary changes, you can configure
  `config.raise_errors_for_deprecations!`, and it will turn the
  deprecation warnings into errors, giving you the full backtrace.

  1 deprecation warning total

  Finished in 0.1623 seconds (files took 1.52 seconds to load)
  11 examples, 0 failures

  Coverage report generated for RSpec to
  /Users/leonchen/Desktop/TAMUber/coverage. 37 / 145 LOC (25.52%) covered.
